I run content and communication for Liga U, the U22 league of the ACB — Liga Endesa, ranked Europe's No. 1 domestic league (Eurohoops, 2026-27). I built the league's brand, voice and community from zero: 85 million organic views on Instagram and TikTok in its first season, with €0 in paid media, and one in two people who watch it on social is 24 or younger. I lead a team of four and a six-figure communication budget.
